EDUCATION

BE in Computer Science Engineering (Specialization in Full Stack Development)

May 2028

Chandigarh University, Gharuan, Mohali Punjab

CGPA: 8.04 / 10.0

- Relevant Coursework: Data Structures & Algorithms, OOP, Computer Networks, DBMS, Operating Systems
- Currently learning Full Stack Web Development (MERN Stack)

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript (ES6+), Java, HTML5, CSS3

Frameworks & Tools: Node.js, Express.js, React.js, MongoDB (learning), MySQL, Git, GitHub, REST APIs, Postman

Problem Solving: 100+ DSA problems solved on LeetCode.

PROJECTS

Job Application Tracker

Feb 2026 – Present

React.js, Node.js, Express.js, MongoDB, REST API

- Developed a MERN stack web application allowing students to manage their internship/job applications with status tracking (applied, interviewing, rejected, offered).
- Built a RESTful backend with API routes handling application CRUD operations, status updates, and deadline reminders, all stored in MongoDB.
- Designed a responsive React.js frontend with real-time status filters and a Kanban-style board view, improving visibility across tracked applications.

RESEARCH EXPERIENCE

Undergraduate Research Assistant — Image Processing

Dec 2025 – Present

Chandigarh University | Supervisor: Prof. Ankit Garg

- Implementing the Seam Carving algorithm in python under faculty supervision — a content-aware image resizing technique that removes low-energy pixel seams using dynamic programming to preserve salient image regions.
- Benchmarked algorithm performance against standard cropping; exploring extensions toward video seam carving for a potential undergraduate research paper.

ACHIEVEMENTS & COMPETITIONS

1st Prize — IKS Ideathon (GreenLoops)

16th Feb 2026

Chandigarh University | Team Terra Transit

- Won 1st place at the Integrated Green Mobility Ideathon 2026 by designing GreenLoops — an IoT and cloud-based system that incentivises plastic waste recycling by converting deposited recyclables into redeemable Green Points for EV shuttle rides, bus passes, and public cycles.

Participant — Stack Sprint Hackathon (NutriBuddy)

24th Feb 2026

Chandigarh University | Team CalorieCoders

- Built NutriBuddy — an AI-assisted personalised diet planning web app — in a team of 2 during the Stack Sprint Hackathon, using a React.js frontend, Node.js/Express.js backend, and RESTful APIs to convert user health data into structured daily meal plans with budget-based personalisation.

CERTIFICATIONS

Java Fundamentals (CEJAVA1IN) — IBM Developer Skills Network, Chandigarh University

Nov 2025

Introduction to Web Development — Microsoft

Grade: 96.2%

Web Development Mastery: HTML, CSS & JavaScript — Board Infinity

Grade: 100%

Resolve Conflicts & Trace Bugs with Git — Coursera

Grade: 100%
